AUCTION TERMS

This is a mail bid auction conducted by **Classical Numismatic Group, Inc. (CNG)**. Bidding in the auction constitutes acceptance of the following terms:

1. The property listed in this catalogue is offered for sale by **CNG** for itself and as agent for various owners and other consignors. We reserve the right to reject any bid, to determine the opening price, to set bidding increments, to vary the order of the auction, to reopen bidding in the case of a dispute, to withdraw any lot, to bid on behalf of **CNG**, to bid on behalf of the consignor, and to permit the consignor to bid on his own lots.

2. All lots are subject to a **10% Buyer's fee** which will be added to the hammer price.

3. All coins are guaranteed genuine. Attribution, date, condition and other descriptions are the opinion of the cataloguer, and no warranty is expressed or implied. **Please note that an auction sale is not an approval sale.** Lots examined prior to the sale and lots purchased by floor bidders (including bidders executing commission bids on behalf of other parties) may not be returned for any reason except lack of authenticity. All claims of misdescription and all claims of return, except claims regarding authenticity, must be made within 5 days of receipt of material. Any claim of lack of authenticity must be made in writing by the original purchaser immediately after discovery that an item is not authentic, and upon making such a claim the original purchaser must immediately return the lot to **CNG** in the same condition as at the time of the auction. Estimates are intended as a guide only and not as a statement of opinion of value.

4. Terms are for cash, with invoices being due and payable immediately upon receipt. Interest and collection charges of 2.0% per month, from the date of the auction, shall be payable on invoices not settled within 30 days of the sale date. Payment by check must be made in either US dollars (\$) drawn on a US bank or British sterling (£) drawn on a British bank. All successful bidders outside North America and the United Kingdom will be invoiced an additional \$15 fee for bank charges, but buyers may deduct this fee if payment is made as required above. Payment may be made by Visa, Mastercard (Access) or American Express; however, a 3.5% surcharge is made for payment by credit card.

5. Bidders not known to us must provide us with satisfactory credit references or pay a deposit as determined at **CNG's** discretion before bidding. Minors are not permitted to bid without written consent of a parent guaranteeing payment. **CNG** may require payment in full from any bidder prior to delivery of lots. Title does not pass until lots are paid in full. Upon receipt of lots, the buyer assumes full responsibility for loss or damage.

6. **Estimates are in U.S. dollars (\$US) and bids must be in even dollar (\$)** amounts. **CNG** will execute mail bids on behalf of mail bidders. Subject to reserves and opening prices, mail bids will be executed at one bidding increment (approximately 10%) over the next highest bid. Please note that bids below estimate are rarely reduced, but bids above estimate stand a good chance of being reduced. In the case of identical bids, the earliest bid wins. A mail bid has priority over an identical floor bid. Bid by lot number. No lots will be broken. Bidders are responsible for errors in bidding. Check your bid sheet carefully.

7. A word on **Reserves**. **CNG** reserves the right to place a reserve on any lot. However, no reserve will be higher than the estimate, and ordinarily lots are reserved at 60% of estimate.

8. Bidders personally guarantee payment for their successful bids, including bidders executing commission bids from other parties and bidders representing corporations or other entities. Buyers accepting commission bids from other parties do so at their own risk and remain responsible to **CNG** for full settlement under these Auction Terms.

9. In the event a successful bidder fails to make any payment when due, **CNG** reserves the right to resell the material, and the bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid. **CNG** also reserves all rights that it would be entitled to under the Pennsylvania Uniform Commercial Code, including the right to offset any sums due from a successful bidder against any future consignment or purchase or monies or goods in possession of **CNG**.

10. Sales tax, postage, handling and insurance are the responsibility of the buyer and are added to all invoices where appropriate. Postage, handling and insurance for book lots will be invoiced separately from coin lots. On any tax not paid by the purchaser which should have been paid, even if not invoiced by **CNG**, the purchaser agrees to pay the same on demand together with any interest or penalty that may be assessed. It is the responsibility of the buyer to comply with foreign customs and other regulations.

11. **Prices Realised** are published after the sale and are mailed with **CNG's** next publication.

12. Bidders consent to waive any claim for incidental, consequential or exemplary damages arising from this auction. The sole remedy that any participant in the auction shall have for any claim or controversy arising out of the auction shall be a refund, without interest, of all or part of the purchase price paid by the participant.

13. All rights granted by **CNG** or otherwise available to bidders and purchasers, under these Auction Terms or otherwise, are personal and may not be assigned or transferred to any other person or entity, whether by operation of law or otherwise. No third party may rely on any benefit or right conferred by these Auction Terms. Bidders acting as agents must disclose the agency in writing to **CNG** prior to the auction; otherwise rights are limited to the agent and are not transferable to the undisclosed principal.

14. Any dispute regarding this auction shall be governed by the laws of Pennsylvania and shall be adjudicated only by the Lancaster County Court of Common Pleas or the U.S. District Court for the Eastern District of Pennsylvania, and all bidders submit themselves to the personal jurisdiction of these courts for this purpose based on service by registered or certified mail. In any dispute regarding this auction, the prevailing party shall be entitled to recover its reasonable costs and attorney fees.

GOOD LUCK, and remember to mail your bid sheet early.
Bid sheets must be received by September 20, 1995.

NOTICE TO ALL SUCCESSFUL BIDDERS:

We use soft, PVC (Polyvinyl chloride), flips to ship auction lots in. We do not recommend these flips for long-term storage as PVC does damage coins over prolonged exposure. We recommend placing your coins in a safe type of flip (Mylar) for long-term storage purposes.

Euboean Coinage From The W.P. Wallace Collection

205. **EUBOEA, Euboean League, Chalkis, and Karystos.** Lot of 326 AR Drachms (291; 157 from Chalkis, 130 Euboean League and 4 Karystos), Hemidrachms (27, all from Chalkis), and Didrachms (10, all from Karystos) from the W.P. Wallace Collection. Euboean League coins: In 1956, the ANS published *The Euboean League and its Coinage*, by W.P. Wallace as NNM #134. This work became the standard reference on Euboean League coinage and the Euboean coins in this lot represent part of the material used in that effort. All of the Euboean League coins are drachms with a female head on the obverse, and bull's head on the reverse, 2 high relief, 10 without symbols, and the remaining with various symbols. For the most part, the coins in this lot represent the bottom end of the material, the coins that are broken, corroded, over-cleaned and otherwise damaged, though all are listed in the catalog on pages 143-176. Only one coin is plated, coin # 89. This group represents only a small percentage of the coins listed as belonging to the Wallace collection. Chalkis: The coins from Chalkis represent the largest portion of this lot (157 drachms and 27 hemidrachms). The obverse features the head of a nymph, the reverse an eagle. The drachms have various symbols on the reverse including a flower, trident, trophy, kantharos, wreath, monogram and caduceus. Like the Euboean League coins, the coins from Chalkis are in generally poor condition, most being low grade with problems. Karystos: The drachms in this group all have a head of Herakles on the obverse and a kneeling cow on the reverse. The didrachm features a female cow suckling two calves on the obverse and a rooster on the reverse. Again, all of the coins are in a poor state of preservation. All of the coins in this lot were purchased by Wallace in the late 40's and early 50's. Most, but not all, of the coins are traceable to their original hoard, as published in *An Inventory of Greek Coin Hoards*, 165, 167A, 167B, 177, 205 and 239. The largest percentage are traceable to Hoard 177, including all of the Karystos, all the Chalkis hemidrachms and most of the Euboean League coins. Those that are not directly traceable probably originated from these hoards also. This lot is geared for the academically inclined and would make an excellent study group. This lot should be examined and will be sold AS IS, NO RETURNS ALLOWED. 326 coins in this lot. (\$3000)

The boar appears on the earliest one sided staters of Lycia, the lion scalp on the reverse of only one issue, with Pegasos obverse (cf. Von Aulock 4082). Hill in BMC Lycia pg. xlvi rejects the theory that the lion scalp, native to Samos, was taken up by Lycia at the revolt of 440 BC. He places the type around 395 BC. However, to have both of these early types appear together, along with a dynast's name, may suggest an earlier date; in fact this may be the first Lycian coin with a dynast's name.

In July of 118 AD, Hadrian made his first appearance in Rome as emperor to celebrate a Parthian triumph in the name of Trajan. He was quickly called away to Moesia to subdue the Sarmatians and Roxolani. While away, four high ranking senators, Lucius Quietus, Cornelius Palma, L. Publius Celsus and C. Avidius were executed by the senate for an alleged conspiracy against Hadrian, despite a promise by Hadrian not to execute members of the Senate. To calm a suspicious public opinion, Hadrian held a week long gladiatorial show, granted an extra public largesse and as this coin advertises, relinquished the public debt to the state equaling 900 million sestertii. This event culminated in an elaborate ceremony held in the Forum of Trajan where all records of these debts were set on fire.

Interesting. (\$200)

This coin raises an interesting question? Was the Roman government removing denarii from circulation and restiking them as antoniniani on a regular basis or is this just an isolated incident? This would result in a wonderful profit for the government and could explain the wide fluctuations in the weights of antoniniani. A quick scan of our last couple auctions shows antoniniani of this period weighing from 2.6 gm to 5.1 gm. Perhaps all the 2.6 to 3.5 gm antoniniani are overstruck on denarii with no traces of undertype visible. Any thoughts on the subject?

Coinage Of The Mint Of Constantinople, 326-337 AD

Unpublished Reverse Type!

989. CONSTANTINE I. 307-337 AD. \textcent Follis (2.35 gm). Struck 326-327 AD. Constantinople mint. CONSTAN-TINVS AVG, laureate head right / DN CONSTANTINI MAX AVG, VOT XXX, in laurel wreath; A/CONS. RIC VII—; Cohen —; Hunter —; Maurice —; Voetter —. Near EF, dark green patina. Unpublished reverse type for Constantinople mint! Unique and important. [See enlargement on back cover]. (\$500)

The reverse type with VOT XXX is not a new type, as it was also struck at Rome, Heraclea and Ticinum and was struck in conjunction with Constantine's vicenalia celebrations in 325-326 AD. Its place at the mint of Constantinople is pretty easy to determine; the laureate head, the absence of MAX in the obverse legend and the A/CONS mintmark firmly place this coin as one of the first types struck after the opening of the mint in 326. This coin was probably simultaneously struck with the camp gate issue of 326.

990. CONSTANTINE I. 307-337 AD. \textcent Follis (2.97 gm). Struck 326-327 AD. Constantinople mint. Laureate head right / Camp gate; B/CONS. RIC VII 7. Nice EF. (\$100)

The obverse legend on this coin without the F, is either a miscut die or a transition between CONSTANTINVS P AVG COS IIII of the previous issue (T.F./PLC) and CONSTANTINVS MAX P F AVG COS IIII.

RIC X divides the emperor and captive type into several sub-types, depending primarily on whether the emperor is "relaxed" or "active". Since it is unclear to this cataloguer how to distinguish Roman jogging shoes from regular footwear, the reference number assigned is simply the first of the type, and should be considered generic.

The striking of gold at the newly recovered Carthage mint begins with the extremely rare AΦP solidus of 537/538 AD. Like the equally rare ROMOB solidus from Rome, the Africa solidus marks the return of a lost part of the Roman empire to the central authority in Constantinople. The later gold issues of Carthage are unique in being dated, using either the cyclical indictional year or the regnal year. The letters after the reverse legend are not officina indicators, but dates. Justinian's infrequent gold issues can be seen as garrison coinage, coinciding with known military activity in Africa, including unrest fomented by unpaid troops, such as was the case in 538, when the prefect Solomon arrived from Constantinople to calm the situation. In later reigns, from Justin II onward, the production of gold became standardized, reflecting the increasing wealth of the African province. Carthaginian solidi continued their distinctive development, the typically smaller flans eventually becoming almost globular, while keeping the dating system used only at Carthage. This lot and the following lots under Justin II, Maurice and Phocas offer a significant overview of the coinage of the Carthage mint.

Superb Gold Dinar of Kanishka I

Although usually termed "stater", epigraphical evidence suggests the proper name for the Kushan gold piece is "dinara" or dinar.

Rare Transitional Issue of Kanishka II

AV

1379. Kushans. Kanishka II. Circa 332-350 AD. AV Dinar (7.87 gm). Kanishka standing left before lighted altar, holding banner, trident in left field / Siva and bull. Cf. Göbl 554 (Vasishka). Good VF. Transitional issue. (\$800)

The Siva and bull reverse type is normally found on the dinars of Kanishka II's predecessor and brother, Vasudeva II. It appears Kanishka revolted against his brother, and at least initially struck coins similar to his. He would later strike the seated goddess type that would become the standard for the later Kushans. Vasishka, the son of Vasudeva, succeeded his uncle around 350 AD, and struck one scarce emission based on his father's types. The field marks of this piece are similar to the Vasishka piece, but the name is clearly KA N HRKO (Kanishka).

SOLD AS IS - NO RETURNS. (\$100)

McKenna notes in his article that this appears to be two coins fused together. The seam is obvious on the edge where someone "ran a sharp tool around most of the depression between the halves to scrape down to the bare metal." The only real question is did this occur during ancient times when "probably the first coin struck clung to the reverse die, but instead of making a brockage it fused to the hot flan of the second coin when it was struck" or is it a modern fabrication? It appears to be ancient but you decide!
